

WINTERBERRY

Afterglow

Ilex verticillata 'Afterglow'

3-6' x 3-6'

Sun/part shade Zone 4

Compact globe with small, glossy green foliage that turns yellow-bronze in fall. Profusion of bright red berries in winter provide food for birds. Female plant; needs male (Jim Dandy) pollinator for berry production.

Jim Dandy

Ilex verticillata 'Jim Dandy'

3-6' x 4-5'

Sun/part shade Zone 4

Whitish flowers appear over an extended bloom period, making it a good pollinator. It maintains a rounded shape with small, deep green foliage that turns yellow to bronze in fall. This male cultivar does not bear fruit.

Red Sprite

Ilex verticillata 'Red Sprite'

2-3' x 3-4'

Sun/part shade Zone 4

This female cultivar is a large-berried, slow-growing, dwarf shrub with an upright, rounded habit. It requires a male pollinator (Jim Dandy) to produce fruit. Foliage is dark green and turns yellow or bronze in fall.
