

PHLOX DIVARICATA (WOODLAND PHLOX)

Location: Zone 2, part sun, moist, well-drained soil

Shape: Low mound

Foliage: Green

Flowers: Spring

Notes: Mat forming habit with masses of star-like, clear purple flowers with deep green foliage. A beautiful, native groundcover that will bring excitement to shady or woodland gardens.

Blue Moon

Phlox divaricata 'Blue Moon'

10-14" x 12-18"

Part sun/shade

Zone 4

Low mound, spreading habit with masses of star-like, clear violet-blue flowers all spring and deep green, semi-evergreen foliage. Great for woodlands or shady sites. Native.

PHLOX PANICULATA (GARDEN PHLOX)

Location: Zone 3-4, sun to part shade, well-drained soil

Shape: Upright, clumping

Foliage: Green

Flowers: Late summer to fall

Notes: Star-shaped flowers grow in large clusters above green lanceolate leaves. Provide good air circulation as powdery mildew can be a problem with some cultivars.
