

SEMPERVIVUM (HENS AND CHICKS)

Location: Zone 3, sun to light shade, drought tolerant, low maintenance

Shape: Mat-like groundcover

Foliage: Bright green with burgundy tips, succulent

Notes: Emerald green leaves with deep red centered heads form open rosettes. In summer, older rosettes send out thick stems topped with clusters of small purple blooms. Rosettes die after flowering; younger rosettes fill in. Adds excellent texture and color to containers and rock gardens.

Black

Sempervivum 'Black'

4-6" x 6-12"

Sun/light shade Zone 3

Bright green foliage with dark burgundy tips that darken to purplish-bronze in fall. Starry, white flowers on thick stalks in summer. A drought tolerant, mat-forming groundcover.

Ruby Heart

Sempervivum 'Ruby Heart'

3-4" x 8-10"

Sun/light shade Zone 3

Rosettes of sharply pointed, silvery blue to blue-green leaves are flushed rosy red at the base. Purple-pink flowers are held aloft on short, leafy stalks in mid-summer. Drought tolerant.
