

Alchemilla (Lady's Mantle)

Location: Zone 3, sun to part shade, cool, wet or dry sites

Shape: Mounded, low spreading

Foliage: Soft, silvery green

Flowers: Early to late summer

Notes: Lobed, densely hairy, chartreuse foliage is crimped at the edges. Soft, frothy, yellow-green foliage hovers above the plant from early summer through autumn. Good edging or groundcover plant.

Goldstrike • *Alchemilla mollis* 'Goldstrike'

12-15" x 12-18" Sun/part shade Zone 3

Mounded, low spreading foliage is soft, silvery-green, lobed and densely hairy. Bright yellow flower clusters bloom from June to September. Tolerates wet or dry sites.
