Firestorm™ Honeycrisp • *Malus 'Firestorm Honeycrisp'*

12-15' x 10-12' Full Sun Zone 4

A highly colored red strain of Honeycrisp. It retains the same characteristics as the original. It ripens in late September with small, very sweet, crisp, juicy fruit. Developed by the University of Minnesota.

Haralred • *Malus 'Haralred'*

15' x 12-15' Full Sun Zone 3

Medium-sized deep red fruit are hard, firm and tart, bearing fruit in early October. Fire blight resistant and cold hardy. Stores well and is good for cooking, baking, and fresh eating.

Haralson • *Malus 'Honeycrisp'*

15-20' x 10-12' Full Sun Zone 3

This variety produces large, tart apples that are very firm. The medium sized fruit ripens in early October and is red in color. The trees are very cold hardy and the apples store well.

Honeycrisp • *Malus 'Honeycrisp'*

12-15' x 10-12' Full Sun Zone 4

Exceptionally crisp and juicy, flavor is sweet but well-balanced. Blooms mid-season and ripens in late September. Excellent storage life, up to 7 months.

Honeygold • *Malus 'Honeygold'*

12-15' x 10-12' Full Sun Zone 3

Fruits are golden-yellowish-green with a bronze blush. Flowers in late season and ripens in early October. Fruit is sweet and stores well. Cold hardy to -50 degrees.

KinderKrisp • *Malus 'KinderKrisp' PP 25,453*

12-15' x 10-12' Full Sun Zone 4

Small, red fruit is sweet, crisp, and juicy. Early season bloomer that ripens in late August. Very disease resistant. Dessert apple developed by David MacGregor of Fairhaven Farms located in South Haven, Minnesota.

Apple

McIntosh • *Malus 'McIntosh'*

12-15' x 10-12' Full Sun Zone 4

Red and green skin, tart flavor, and tender white flesh. Blooms mid-season and ripens in late September. A heavy and reliable cropper that achieves its best flavor in colder apple-growing regions.

Snow Sweet® • *Malus 'Windung'*

12-15' x 14' Full Sun Zone 4

Sweet and tart flavor is outstanding. Really crisp and juicy. Fruits are large and reddish-bronze. Flesh is very white and slow to oxidize when exposed to air. Blooms mid-season and ripens mid to late September.

State Fair • *Malus 'State Fair'*

12-15' x 12-15' Full Sun Zone 4

An excellent all purpose, medium-sized apple with red striped skin. Sweet and tart, good for eating and baking. Has a short storage life. An early season bloomer that ripens in mid to late August.

Sweet Sixteen • *Malus 'Sweet Sixteen'*

10-15' x 10-12' Full Sun Zone 4

One of the best for fresh-off-the-tree eating, Super sweet with a richly complex flavor—similar to vanilla with just a hint of molasses and fine bourbon. Blooms mid season and ripens mid September.

Zestar!® • *Malus 'Zestar!'*

10-15' x 10-12' Full Sun Zone 4

Very crisp and juicy with an above average sweet/tart flavor. Mostly red on a yellow background. It will store well for several weeks after being picked. Early season bloomer that ripens mid to late August.
