

# Arborvitae

## **Brandon • *Thuja occidentalis* 'Brandon'**

12-16' x 6-8'      Sun/light shade      Zone 3

Narrow, cone-shaped growth habit with densely branched, bright green foliage that retains its color even during harsh winters. Good resistance to winter burn and tolerates heavy soil. Excellent for screening.

## **Dark Green • *Thuja occidentalis* 'nigra'**

18-24' x 8-10'      Sun/light shade      Zone 3

Improved pyramidal form and dense, fan-shaped foliage that retains its rich, dark green color better during the winter. Excellent screen or large hedge. Size can be controlled with annual pruning. Moist, well-drained soil.

## **Degroot's Spire • *Thuja occidentalis* 'Degroot's Spire'**

10-12' x 3-4'      Sun/part shade      Zone 3

Dwarf, slow-growing, upright pyramidal form and a twisted texture. Thick, rich green foliage takes on a purple cast in winter. Tolerates shearing for a more tailored column.

## **Full Speed A Hedge® American Pillar • *Thuja occidentalis* 'American Pillar' PP 20,209**

25-30' x 3-5'      Sun/light shade      Zone 3

Fast growing with a narrow, upright form and dense green foliage year round. It doesn't need pruning to maintain its columnar shape. Cold hardy, heat tolerant, and deer resistant. Will tolerate heavier soils.

## **Golden Globe • *Thuja occidentalis* 'Golden Globe'**

4' x 4'      Sun/light shade      Zone 4

Very dense globe with a beautiful golden yellow color on the outside and nice bright green in the interior section. Coloration will darken to bronze during winter weather but remains quite attractive.

## **Hetz Mini • *Thuja occidentalis* 'Hetz Mini'**

2-3' x 2-3'      Sun/part shade      Zone 3

Low, compact globe with dense, rich green needles that are arranged in flat layered sprays. Slow growing and does not require pruning to maintain shape. Very adaptable, tough, and durable.

# Arborvitae

## **Hetz Wintergreen • *Thuja occidentalis* 'Hetz Wintergreen'**

20-25' x 6-8'

Sun/light shade

Zone 3

This fast growing Arborvitae remains green year round (no winter bronze tones) and makes a great screen or conical accent. Grows with a strong leader and is able to withstand heavy snow loads without splitting.

## **Holmstrup • *Thuja occidentalis* 'Holmstrup'**

10-12' x 5'

Sun/light shade

Zone 3

Dense, narrow-pyramidal shape with attractive rich green scale-like foliage in vertical sprays. Foliage retains good green color throughout winter. Slow growing, prefers moist, well-drained soil.

## **Little Giant • *Thuja occidentalis* 'Little Giant'**

4-5' x 4-5'

Sun/part shade

Zone 3

This compact globe has rich green foliage year round. Its slow growth rate allows it to retain its neat, round shape with little maintenance.

## **Mr. Bowling Ball® • *Thuja occidentalis* 'Bobozam'**

2-3' x 2-3'

Sun/part shade

Zone 3

Unique, finely textured, soft sage-green foliage forms a perfect compact globe that does not require pruning or shearing to maintain shape. Slow growing; prefers well-drained soil.

## **North Pole® • *Thuja occidentalis* 'Art Boe' PP 22,174**

12' x 5'

Sun/part shade

Zone 3

Tight, columnar growth habit with dark green foliage that is resistant to winter burn. Cold hardy and low maintenance. Light pruning as needed to maintain shape.

## **Planet Earth™ • *Thuja occidentalis* 'RutThu4' PPAF**

3-5' x 3-5'

Sun/part shade

Zone 4

This dense globe has bright green foliage in the summer that takes on bronze tones in the winter. It doesn't need pruning to maintain shape. Resistant to needle blight and winter burn.

## **Primo®** • *Thuja occidentalis* 'IslPrim'

4' x 1'                      Sun/light shade                      Zone 4

A mini arborvitae that has a naturally sculpted, spire-like growth habit and richly textured foliage. The green foliage takes on a bronze tone in winter. It develops into an elegant small tree at maturity.

## **Pyramidal** • *Thuja occidentalis* 'Pyramidalis'

12-25' x 3-6'                      Sun/light shade                      Zone 3

Narrow pyramidal form is decidedly crisp without shearing, about half as wide as the species. Soft textured, bright green foliage appears lush and dense. A tough, yet elegant evergreen that prefers winter shade.

## **Rushmore** • *Thuja occidentalis* 'Rushmore'

12-20' x 3-5'                      Sun/part shade                      Zone 3

Tough and adaptable upright evergreen with dense dark green foliage that is resistant to winter burn. It's narrow form makes a great hedge or screen. Very cold and wind tolerant. Shear once a year to maintain shape.

## **Sting®** • *Thuja occidentalis* 'SMNTOO' PP 34,292

15-20' x 1-2'                      Sun/light shade                      Zone 3

The tight, sword-like structure makes this a great specimen or screen for narrow sites. It does not require pruning to maintain shape. Tolerant of most soils, but prefers average moisture in well-drained soil.

## **Technito®** • *Thuja occidentalis* 'Bailjohn' PP 15,850

8-10' x 4-5'                      Sun/light shade                      Zone 3

A slow growing, compact, pyramidal form that requires very little shearing to maintain shape. Dense, dark green foliage retains its attractive color through the winter.

SHRUBS & TREES

## **Techny** • *Thuja occidentalis* 'Techny'

15-20' x 8-10'                      Sun/light shade                      Zone 3

Broadly based pyramidal form has dense foliage that maintains its handsome dark green coloring all year. Excellent for medium to tall hedges or screens. Grows best in well-drained, loamy soils.

# Arborvitae

## **Techny Globe • *Thuja occidentalis* 'Techny Globe'**

5'+ x 5'+      Sun/light shade      Zone 3

Dense, dark green foliage of a Techny, sheared into a globe form. Requires regular pruning to maintain shape and size. Grows best in well-drained, loamy soils.

## **Woodward Globe • *Thuja occidentalis* 'Woodwardii'**

3-5' x 4-5'      Sun/part shade      Zone 3

Compact globe to spreading form with attractive scale-like rich green foliage in flattened sprays. Does not need shearing to maintain globe shape. Prefers moist, well-drained soil.

## **Yellow Ribbon • *Thuja occidentalis* 'Yellow Ribbon'**

8-10' x 2-3'      Sun/part shade      Zone 4

Very narrow, columnar growth habit with showy, dense golden-yellow foliage all year. Used as an accent or screen where brilliant color is needed. Very adaptable; best in well-drained, loamy soils with consistent moisture.
