

# Birch

## **Cesky Gold™ Golden Treasure • *Betula x plettkei* 'Golden Treasure' PPAF**

2-4' x 2-3'      Sun/part shade      Zone 2

This dwarf birch has spectacular new growth that emerges yellow, red, and orange. Brilliant chartreuse foliage the rest of the season is a bright focal point in the landscape. Responds well to pruning or can be left to grow naturally. Needs little attention once established.
