

Fir

Balsam • *Abies balsamea*

45-60' x 20-25' Sun/part shade Zone 3

Upright, pyramidal form with flat, shiny, dark green needles with a strong balsam scent. A favorite for Christmas trees, and provides shelter for birds and animals. Native.

Concolor • *Abies concolor*

30-50' x 15-30' Sun/part shade Zone 4

Upright, densely conical with attractive, blue-green needles that curve outward and upward on branches and when crushed, emit a lemon scent. Tolerates drought, heat, and cold temperatures. Requires well-drained soil.

Piccolo Dwarf Balsam • *Abies balsamea* 'Piccolo'

2-3' x 2-3' Sun/part shade Zone 3

Tiny, uniform, dark green needles radiate around the many short branches on this dwarf globe Balsam Fir variety. Plant in rich, acidic soil where it can be viewed up close.

Tyler Blue Balsam • *Abies balsamea* 'Tyler Blue'

15-18' x 10-12' Sun/part shade Zone 3

Lush blue foliage on a fairly compact, pyramidal form. Needles are soft and maintain their distinctively blue color in sun or part shade with well-drained soil. Slower growing, measuring 8-10' tall & 4-5' wide after 10 years.
