

Oenothera (Evening Primrose)

Location: Zone 4, sun to part shade, heat and drought tolerant

Shape: Compact, low growing mound

Foliage: Glossy dark green

Flowers: Summer to fall

Notes: Following the large, canary yellow blooms, 4-winged seed pods are produced which are beautiful in dried floral arrangements. Ideal for softening the edges of pathways or planting in rock gardens.

Ozark Sundrops • *Oenothera missouriensis*

10-12" x 18-24"

Sun/part shade

Zone 4

Large, cup shaped, bright yellow flowers bloom from June through September followed by showy seed pods. Glossy, dark green foliage forms a low spreading mound. Heat and drought tolerant. Native.

Siskiyou Pink • *Oenothera speciosa* 'Siskiyou'

8-10" x 18-24"

Sun/part shade

Zone 4

Saucer-shaped, light pink flowers adorned with a white center and greenish-yellow throat rise above rosettes of narrow, serrated, green leaves. Its drought tolerance and spreading habit make it perfect for rock gardens.
