

# Tiarella (Foamflower)

**Location:** Zone 4, part sun to shade, moist, well-drained soil

**Shape:** Mounded

**Foliage:** Deeply lobed, mint-green with dark splotches

**Flowers:** Spring to summer

**Notes:** Tiarella are small plants with slightly hairy heart-shaped leaves that form clumps or spread by runners to make patches. In spring the plants give rise to spikes of starry white or pink flowers.

**Spring Symphony • *Tiarella 'Spring Symphony'* PP 12,397**

8-10" x 8-10"

Part sun/shade

Zone 3

Lightly fragrant, pale pink flowers bloom from May to July. Deeply cut foliage is green with deep blush marks and forms a compact mound. Prefers moist, well-drained soil.
